2020	45	71	37
2021	49	76	37
2022	57	75	48
2023	55	78	42
2024	60	78	54

- 
- In 2023, about 12 billion UAH were allocated for financing scientific and scientific-technical activities. At the same time, the draft state budget for 2024 provides for positive developments in the financing policy of this sphere. In particular, it is planned to increase the volume of expenditures by 20%.

Conclusions

- ▶ The results obtained allow us to compare the innovative potential of enterprises with the capabilities of the external environment, which, in turn, contributes to the clear formation of goals and the determination of priority areas for the development of innovative activity, taking into account the investment component at the level of individual business entities.
